PROFESSIONAL SUMMARY

Highly motivated and results-driven **MERN Stack Developer** and BCA student with strong hands-on experience in **Full-Stack Web Development**. Proficient in building scalable, responsive, and user-centric web applications using **React.js, Node.js, Express.js, and MongoDB**. Seeking an entry-level or internship role as a **Website Developer** where I can contribute to modern UI/UX development, clean component-based architecture, and performance-optimized web solutions.

TECHNICAL SKILLS

- **Web Development (MERN Stack):** React.js, Node.js, Express.js, JavaScript, HTML5, CSS3
- **Databases:** MongoDB
- **Version Control:** Git, GitHub
- **Tools & Platforms:** VS Code, Postman

Projects

[Professional Portfolio Website](#) – Modern UI & Component Architecture

Tech Stack: React.js, JavaScript, Tailwind CSS

- Designed and developed a professional single-page portfolio website using **React.js** and **Tailwind CSS**, focusing on clean UI and performance.
- Implemented a **component-based architecture** (Hero, About, Projects, Contact sections) to improve scalability and maintainability.
- Integrated a **Light/Dark Theme Toggle** using React Hooks and local storage to enhance user personalization.
- Developed a responsive contact form with client-side state management and toast notifications for improved user feedback.

[Personal Profile Card Build](#) – Dynamic React Application

Tech Stack: React.js, JavaScript, CSS3,

- Built a dynamic single-page application to capture user input and display a **real-time profile preview**.
- Utilized **React Hooks (useState)** for efficient state management across components.
- Implemented a **Light/Dark Theme Toggle** with dynamic styling to enhance accessibility and UI experience.
